The Writer's Journals Series

Introduction

It may seem that creating a social media ad book like the sample included in this book is an easy-peasy simpleton activity. And it could be that, but it won't sell very well and it won't reflect well on you as an expert and authority.

The primary purpose of a social media ad book is to demonstrate your expertise and authority. Create a social media ad book that focuses on your expertise, like the sample book focuses on my desire to become an expert on virtual summits as well as a useful advisor to fellow book authors and internet marketers.

The fantastic thing about any social media ads are that they are generally highly targeted to your interests. You can train Facebook to show you the ads and posts that you really want to see. The more you click on similar posts and similar ads, Facebook will show you more of them.

Comment on the posts or ads, click through to the advertised or linked website, save the graphics, like or heart the posts, etc. Every time you interact with a post or ad, Facebook will show you more of the same. So you can clearly train Facebook to show you more of the things you want to feature in a Facebook ad book, whether you want to feature ads, memes, quotes, or other illustrations.

Other social networks like X, Instagram, LinkedIn, YouTube, Rumble, etc. will also show you more of the posts and ads that you interact with on a regular basis.

The social networks will show you different posts and ads as you change your interests. So, if you want to write more than one book featuring graphics, ads, or memes, you can do that. As you will learn in future books in this series, I've done research on cat memes, dog memes, coffee memes, sunsets, love quotes, and more—that's besides the ads for virtual summits and other ads of interest to writers.

To keep a Facebook ads book simple and easy to compile, just save a graphic, a title or quote, and possibly a link for each entry in your book.

Remember: The primary purpose of a Facebook ads book is to showcase your expertise and/or authority to your potential customers. So, focus on the ads, memes, and graphics that would attract your primary targeted audience.

Check out the following sample book, which I will be using to establish my nascent expertise in promoting summits and my long-lasting expertise in marketing books.

Introduction to the Sample Book

Why create a book featuring Facebook ads for internet summits as well as services for authors and internet marketers? Because there's a reason why Facebook allows such ads on the site (other than to make money—obviously their main motivation).

Facebook ads allow marketers to showcase what they offer with their own words and their own images. But, for authors and marketers who are not advertising, the ads offer incredible opportunities.

Definition of a Summit

An internet summit is a gathering of industry experts and leaders who come together to share insights on specific topics such as marketing, business, health, spirituality, parenting, writing, coaching, AI, and more.

These summits cover AI, internet technology, emerging trends, marketing, healing, and more. Summits can be in-person or virtual and often focus on networking, collaboration, and knowledge sharing among participants.

Here are a few opportunities you will uncover by checking out summit ads and sales pages

as well as by actively attending summits, listening to talks, and asking questions.

Get Ideas for Summits

By reviewing the ads and sales pages for current summits, you can start to develop ideas for summits you'd like to organize or be part of. You can review the range of summits being offered and decide which approach and subject works best for the summer you'd like to offer.

Write Your Sales Copy

As you read the ad copy and sales page copy for various summits, you'll figure out what works best to convince people to sign up for a summit and to also buy into the upsells that most summits offer. You'll also discover what sort of offers and upsells you can make while hosting a summit.

Find Partners for Your Summits

Anyone that appears in a current summit is likely to be interested in appearing in future summits. Check out who is in related summits (to the one you want to create) and start to develop relationships with them.

Find Partners for Your Affiliate Programs

People that run summits or are speakers at summits make the best partners for any affiliate programs you offer for your books, courses, or other offers. These are top influencers and opinion leaders. If they like what you offer, they'll be strong advocates for your books, products, and services.

Get Ideas for Future Books

Summits, especially the successful summits, can provide you with inspiration for the creation of your best books, courses, seminars, and other products.

They can provide you with ideas for content, models for your best sales pages, and inspire you to take the right angles or approaches to reach out to your potential audiences.

Locate Podcast Guests

The hosts and speakers at summits make the best interview guests for your podcast. Reach out to them with offers to interview them for the summit or for whatever products or services they offer. Because they have a current offer on tap, they will be enthusiastic and informative guests.

Become a Podcast Guest

Most hosts and speakers at summits are among the top influencers in the worlds of social media and internet marketing. These are the people you want to connect with. They have large audiences who follow their every word. If these influencers agree to interview you, then you and your ideas will be exposed to a larger audience than you could ever reach solely on your own.

Find Other Products and Services to Offer as an Affiliate

Most summit hosts and speakers offer additional products and services that you might like to promote to your customers and followers. As an affiliate, you can make income that could make a big difference in your business—and justify more advertising, social media promotion, and marketing.

Learn about New Resources

In most summits I've attended, I've learned about many useful websites, products, and resources that I can use—and my readers, listeners, followers, and customers can use as well. These resources have made a big difference in how I work and how I play.

Improve Your Sales Graphics

As I've collected summit graphics for this book, I've noticed the ad graphics that do the best job of capturing my attention and making me want to sign up for various summits. This book will expose you to a variety of summit graphics and ad copy that will make it easier for you to post Facebook ads, create sales graphics, and write copy that convinces readers to sign up for your summit (or any other product or service you offer).

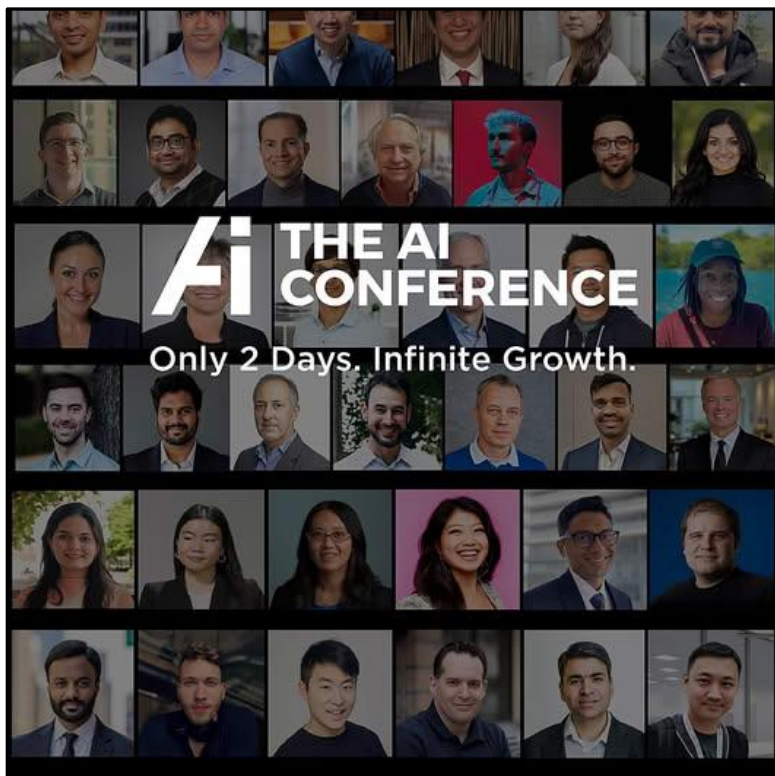

Facebook Ads

In this book, I feature more than a hundred ads for internet summits. In some cases, I featured multiple versions of ads so you can decide which of the ads work best at attracting your attention and interest.

Following the ads for summits, I've featured about 50 ads for services and products that might interest authors, publishers, social media marketers, and internet marketers.

Enjoy!

How to Leverage Podcasting

A promotional graphic for a podcasting guide. The background is dark with a blurred image of two professional microphones on stands, each with a pop filter and headphones. A white audio waveform runs horizontally across the middle. In the center, a white rounded rectangle contains a book cover titled 'HOW TO LEVERAGE PODCASTING AS A MARKETING AND BRANDING TOOL'. Below the waveform, the text 'HOW TO LEVERAGE' is in small white letters, followed by 'PODCAST' in large white letters, and 'AS A MARKETING AND BRANDING TOOL' in smaller white letters. At the bottom, there are two white microphone icons. Between them is a blue button with 'FOR \$0.99' and a black box with 'WAS \$19.95'. Below that is a blue button with 'DOWNLOAD NOW'. The DataCzar logo is in the top right corner of the graphic.
